

We are delighted that you have chosen to take part in our competition!

By participating, you not only contribute to enhancing the innovation strength and competitiveness of the manufacturing industry but also seize the opportunity to be recognized as a leader in innovation. The competition primarily aims to provide a platform for potential role models in the field of data-driven production.

Please take a moment to answer the following questions. Your participation enables us to promote the advancement of the manufacturing industry in data usage along the value chain through inspiring insights and to recognize outstanding approaches and the companies behind them.

Contact

Approach / Use Case Informationen

Concise title for the submitted approach / use case (max. 50 characters):

Short description of the approach (max. 750 characters):

Unique Aspects & Benefits

Please describe in two to three sentences what makes your approach unique (max. 1000 characters):

Procedure

What data do you use? Where does the data come from? (max. 1000 characters):

What processing or analysis steps are performed? (max. 1000 characters):

How does data processing/analysis create added value? (e.g., autonomous process control, decision support, sharing for third-party use) (max. 1000 characters):

Goal & Impact

What specific goal do you pursue with your approach? (max. 1000 characters):

How do processes in your company or at your customers change as a result of your approach? The focus should be on the user of the approach in the manufacturing industry. (max. 1000 characters):

What positive impacts does the approach have on your company, your customers, or other stakeholders? The focus should be on the user of the approach in the manufacturing industry. Can the impacts be quantified? (max. 1000 characters):

Implementation Level

How far along are you with the implementation of your approach? (e.g., concept phase, testing phase, productive use) (max. 1000 characters):

What does the (further) implementation plan for your approach look like? (max. 1000 characters):

Are there any potential challenges in the implementation, and how do you plan to address them? (max. 750 characters):

Additional Information

Do you have any additional information or documents that help to better illustrate the potential of your approach (e.g., presentations, research results, prototypes)? You are welcome to submit these supplementary materials together with the form.

Thank you very much for your participation.

Your information will be treated confidentially and used solely for the purpose of evaluating your approach (use case) within the framework of the champI4.0ns AWARD 2026.

Please send the completed questionnaire by July 31, 2025 at the latest via email to award@champi40ns.eu. You will receive further information about the next steps shortly after your submission.

We look forward to your innovative ideas!

Your champI4.0ns Team
